MY POOR TSI-TSI

A kid in kindergarten I was,
A pet hen I had
Which dearly was loved,
From my tiny palms I fed
Its pecking sensation I dreaded but enjoyed.

One fateful evening
To the kitchen I returned,
Having played enough for the day.
My poor Tsi-tsi in the pot I saw,
Dinner had she become.

Inconsolably I wailed,
Refusing to touch a morsel.
My mother a story shared
Of how people and pets all in heaven await
For our return there someday.

"Will I my Tsi-tsi in heaven see again?"
To mother I asked.
Nodded she, with a smile on her face.
A little consolation I found,
With tears still in my eyes, my poor pet I ate.

RRC Members

RED RIBBON Club

The Red Ribbon Club is an international movement aimed at raising awareness on HIV/AIDS, its prevention and Support for people already living with the disease. The red ribbon is a symbol for both drug prevention and for the fight against AIDS. The club seeks to amass the youth in activities which lead to make them aware of causes and prevention of AIDS.

State College of Teacher Education is an active role model in the functioning of RRC through its active participation in blood donation drives, awareness programs and in other club related activities. The college has 11 student-teacher members and two supervisors. The college had its first RRC meeting for the year 2022 on 1st February.

On the 5th of February, the college RRC Club went out for a memorable outing at DZULEKE. The purpose of the outing was to familiarize ourselves with each other, built good rapport, and have discussions on the burning issues of HIV prevalence in Nagaland. The discussion proved fruitful with every member contributing their knowledge to the table for interpretation. Everyone brought forth their creative suggestions on how we can bring the down the numbers by raising awareness through the involvement of various stakeholders such as the church, the community, the school etc. At the end, the outing culminated with all the members taking part in a delicious heavy lunch.

The SCTE Red Ribbon Club will continue to strive its best to reach out to the youths and the community as a whole in making Nagaland an HIV/AIDS free paradise.

MOTIVATION

Motivation is a process in which the learners' internal energies are directed towards a goal or an object or an activity in the environment. In teaching learning process, it involves arousing, persisting, sustaining and directing desirable behaviour in the learners.

Ways to enhance Learners' Motivation

- Child-centred approach
- Knowledge about individual differences
- Linking new learning with previous knowledge
- Definiteness of purpose and goal
- Setting attainable goal
- Experience of success
- Using effective teaching learning methods
- Using appropriate teaching aids and devices
- Acquainting the learners with their progress/results
- Praise and reproof
- Rewards and punishment
- Ego involvement
- Sublimation of learners' innate impulses
- Competition and co-operation
- Development of positive attitude in learners
- Appropriate learning situation
- Attractive physical classroom setting
- Congenial classroom environment
- Immediate feedback
- Novelty in teaching learning activities
- Using Teaching Skills (Skill in Stimulus Variation, Skill in Explanation, Skill in Questioning, , Skills in Reinforcement, Skill in organising Cooperative Learning etc.)
- Teacher's own motivation and interest in teaching

28th Feb, 2022- Internal Test for B. Ed began.

2021 ETCHED IN MY MEMORY

Many things etched in my memory.
Some I rather forget but couldn't,
Some I wish it's not just memory which holds them.

Beautiful people to whom I'd say my
final goodbyes after some months;
Will we ever cross paths again?

This year went by too swift.
Many blessings to count,
Though the heart focus the hurtful ones.

To the people I bond this year,
Thank you for having me as your friend.
Your friendship have kept me going....

I hope you had a wonderful 2021
If not, there is a new year to look forward to.
Thank you for being etched in my memory.

SCTE, A PLACE FOR ALL

Oh! SCTE Kohima
A place for all people
Diversified by age, tribes, religion,
Gender and socio-economic background.
But we all came together under one roof
In pursuit to learn, to excel,
to succeed in our career.
And with a common goal.
'To become the best version of teacher'

Oh! My dear classmates
How we met one another in memorable
And unforgettable.
From online classes to offline classes.
From virtual friends to actual friends.
How we met is memorable
Sharing meekly hellos and smiles
Trying to link names with faces.
Now we are allies sharing thunder storming laughter.

Oh! SCTE Kohima
A place for all people
A place where equality and opportunities triumph.
Participating and grabbing every opportunities.
To make the best indelible memories.
From busy group discussion, presentations, lectures
In class to outdoorsy time
Shouting, actively playing for our team.
I will linger on all these memories and
Cherish it for lifetime.

SONG OF AN EAGLE

High up above where rugged mountains rise
To meet the sky and atop trees as old
As can be, I watch the world below lies,
And gaze at the world with piercing eyes bold.
Of the skies I lay claim as the master
And a dominion over the water.

One flap of my wings and I am in flight
Up above the clouds that float aimlessly.
All of nature in its glory in sight,
I soar and hover about gracefully.
I fear neither the thunder nor the rain,
I am free and wild and know little pain.

Over ravines and fields and streams I fly
And watch the horizon where the hills fade,
Or a meandering river that flows by
Many a green pasture and forest glade.
My world in the skies is clear and peaceful
And my unbounded freedom is gleeful.

Over snowcapped mountains and waterfalls,
Over the meadows and valleys and hills,
And over where nature beckons and calls,
I fly free and my soul with pure joy fills
For such a gift of freedom and pleasure,
Which gifts of gold or gems cannot measure.

THE LONELY FARMHOUSE

Staring pensively out of my window,
I saw a sight which kept me staring still-
A lonely farmhouse upon a meadow
With trees made younger by summer rain fill.
Hardly a soul stirred in that paradise,
A quiet piece of heaven so inviting.
Oblivious to the world of care it lies,
In a peaceful stillness so enchanting.
I thus long to be out there with nature,
To breathe in the air of the countryside,
Passing my hours in easeful leisure,
While I in this part of the country bide.
But my world of obligations and care,
Prevent me from taking such a venture.
Though the pain in my heart I cannot bear,
Contented must I be without nature.
